

new era of set personalization

components of the set

- the arrangement of all components of the omegapack set is consistent with the course of the medical procedure, and their order enables efficient application while maintaining the principles of asepsis
- the risk of component contamination during kit disassembly and operating room preparation has been reduced

Operating theatre is a specific environment where time is the most valuable factor influencing the success of the operation. It is a place where every minute - or even a second - counts, because it can affect the patient's life. To meet the expectations of medicine, ZARYS introduces operating sets to its offer that meet the highest standards, helping to improve the preparation of the operating theatre before the procedure

advantages of using surgical sets

omega pack

QUALITY

properly selected composition of the set according to individual needs for a specific medical procedure in line with the Customer's order

EPIDEMIOLOGICAL SAFETY

reduced risk of patient infection by minimizing the time of contact of medical staff with devices during the preparation of the theatre and the patient

STANDARDIZATION OF PROCEDURES

correct and schematic conduct during the procedure

one package - one treatment

EASY RECORD KEEPING

optimization of record keeping - one self-adhesive label with the identification of the used set, instead of each used product separately

REDUCTION OF ERRORS

the complete set contains all disposable medical devices necessary for the surgical operation, which eliminates the possibility of errors during the selection of individual products

WIDE RANGE OF PRODUCTS

a wide range of medical devices selected individually in accordance with the Customer's preferences

SAVING THE STOCKS

reduced number of supplies, saving space in the warehouse

TIME

unpacking the set and preparing the operating theatre takes about

30%

less time than selecting individual products and improving work at operating block

REDUCING COST

EFFECTIVENESS

increasing work productivity, so that you can perform more surgical procedures in one day, improvement of work of medical staff

ENVIRONMENT

the amount of generated waste is reduced to a minimum

- one packaging

complete your own set

STEP 1: specialized drape as a key component of each surgical set

STEP 2: other components necessary for a given procedure, such as: dressing materials, disposable equipment, surgical gowns, disposable tools, containers and others

Medical devices under the omegapack brand by ZARYS are operating sets containing complete equipment with all disposable products necessary to perform a given medical procedure to which the set is dedicated. The operating set contains carefully selected disposable components, such as:
