OVERVIEW OF ZARYS

Our company is our people. We are a family company with Polish capital, we began our journey in 1989 aiming to become a leader among manufacturers of disposable medical devices. At present, we employ over 250 people and supply several thousand customers operating in the broadly defined field of healthcare.

Using the experience and knowledge of our employees gained over 30 years, we provide comprehensive solutions used in hospitals that are essential in the daily struggle for patients' health.

we employ over
250
people

more than
30 years
of experience

In response to our customers' needs and the changing market we launched a sterile production line in 2019, in which we manufacture medical custom packs and devices used during medical procedures and specialist operations.

global brands

We operate with the knowledge that our devices save lives in 60 countries on 3 continents. We take full responsibility for our product quality. We respect our customers, which is why we comply with international ISO standards for medical devices.

Gaining the leading position on the Polish market allows us to look to the future with optimism, and to focus on the development and improvement of the ZARYS offer. From a local company we are becoming a global company, and international expansion has become a permanent part of our organization's DNA.

timeline

1989

We start the company as Service and Trading Company **ZARYS** and set up our first head office in Zabrze.

At a time of great social and economic changes in Europe, we begin our journey to become a leader in the medical device market.

2001

New headquarters and warehouse facilities. ZARYS moves to its own headquarters, housing several dozen employees, equipped with a modern high-bay warehouse.

2009

Devices used in the operating theatre are introduced to the offer, including our own brand - ALPHAtex - sets of surgical drapes.

We achieve a significant increase in sales of disposable devices and medical gloves. We increase the share of imported goods in the overall offer of our company, and above all, we decide to develop products offered, marked with the ZARYS brand.

We obtain manufacturing certificates, one of which is the **EN ISO 13485:2003 + AC:2007** quality management system certificate for medical devices in the field of: "Production and distribution of disposable medical devices for use in the operating theatre and for wound treatment".

2013

We start export sales. We exhibited for the first time at the MEDICA International Trade Fair, and we also make the first deliveries to, among others, the Czech Republic, Denmark, the Netherlands, Lithuania, Latvia, Germany, Romania, Slovakia, Switzerland and Italy.

2015

Due to the presence and recognition on international markets, we change our name to **ZARYS International Group sp. z o.o. sp.k.**

2018

Intensive development of products on offer. We focus on the intensive development of our own-branded product range in order to fully implement the motto that guides us, for the comprehensive supply of medical facilities around the world. We develop product groups in the field of dressings, medical gloves or basic disposable devices.

2019

We open a production line and obtain **EC certificate in accordance with Directive 93/42/EEC, Annex II** excluding (4).

We start the production of omegapack surgical sets and deltaset procedure kits, which facilitates the work of medical staff and significantly shorten the time of preparing an operating room.

2020

ZARYS is on the frontline of the fight against COVID-19. We become a key supplier of personal protective equipment for the Polish health care service fighting the COVID-19 epidemic. Our protective coveralls, masks or gowns are delivered to all hospitals in Poland, and the air bridge we launched between Poland and China is the largest air logistics operation in the history of the country.

2022

We have **branches in the Czech Republic and Romania.** We export our products to 60 countries on 3 continents.

2021

We expand our warehouse space. We open a new logistics centre consisting of a modern high-bay warehouse.

We establish the ZARYS Foundation, whose aim is to carry out activities for health protection and promotion.

We work with great commitment for the success and trust of our customers, ensuring **the highest quality of our devices.**

We are a leader among suppliers of disposable medical devices on the Polish market.

Our logistics centre is the largest warehouse of disposable medical devices in Europe.

our products

save lives

Products from many categories have individual characteristics and for different purposes, which is why we introduced the 12 brands and the ZARYS kids line gradually, taking care of the smallest details.

The logos of our brands are memorable for medics and patients, with satisfaction in the quality of our products. Our Product differentiation makes it easier for customers to identify them and improves the communication process when ordering.

ZARYS

Our production facility located in Silesia consists of **several parts**.

sterile production

The 600 m² **cleanroom** is where we manufacture the specialised surgical sets and procedure kits of our brands omegapack and deltaset.

non-sterile production

The sewing room is the place where, among others, the BETAtex brand of medical clothing, bedding, underpads and personal protective equipment is manufactured.

A fully automated **production line** producing plastic medicine cups and containers for medical waste.

our goals

- 01 supporting sick people, disabled and children
- 02 educational activities, publishing and research
- 03 financing treatment, diagnosis and rehabilitation
- 04 help with the purchase of medicines and medical devices
- 05 promotion of an active lifestyle and preventive healthcare

The ZARYS Foundation was established in 2021 during our assistance in the **fight against the COVID-19 pandemic**. We operate thrivingly thanks to ZARYS' employee volunteering. We focus on a wide range of health protection and promotion activities. We also respond to needs arising from the situation and our environment. We organise raising money and shipments of medical devices to Ukraine.

ZARYS is simply a **responsible business**. We adhere to the highest ethical standards, ensuring that the dynamic expansion of our company goes hand in hand with the principles of sustainable development. Using our capabilities, we support initiatives related to **saving the lives of sick people** and improving their health. We want to promote active lifestyles and take care for those in need.

ZARYS supports SPORT

Since 2017, we have been the Official Medical Partner of the 14-time Polish Football Champion - **Górnik Zabrze Club**. Supporting athletes has become an important part of the company's activities, which is why in 2020 we also started cooperation with **Fortuna 1st League**. One of our activities is to provide clubs with medical devices from the product group designed for athletes and medical staff - under our yellowSPORT brand.
